Appendices

- A. [Record of Intimate Care Intervention](#)
- B. [Toilet Management Plan](#)

Statement of intent

[Barnacre Road Primary School](#) takes the health and wellbeing of its pupils very seriously. As described in the Supporting Pupils with Medical Conditions Policy, the school aims to support pupils with physical disabilities and illnesses to enable them to have a full and rich academic life whilst at school.

The governing board recognises its duties and responsibilities in relation to the Equality Act 2010, which states that any pupil with an impairment affecting their ability to carry out normal day-to-day activities must not be discriminated against.

Pupils will always be treated with care, sensitivity and respect when intimate care is given, and no pupil will be left feeling embarrassed or as if they have created a problem.

Legal framework

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Children and Families Act 2014
- Education Act 2011
- Health Act 2006
- Equality Act 2010
- DfE 'Keeping children safe in education'

This policy operates in conjunction with the following school policies:

- Health and Safety Policy
- Supporting Pupils with Medical Conditions Policy
- First Aid Policy
- Child Protection and Safeguarding Policy
- Staff Code of Conduct
- Whistleblowing Policy
- Administering Medication Policy
- Safeguarding and Child Protection Policy
- Health and Safety Policy

Definitions

For the purpose of this policy, **intimate care** is defined as any care which may involve the following:

- Washing
- Touching
- Carrying out an invasive procedure
- Changing a nappy
- Changing a child who has soiled themselves
- Providing oral care
- Feeding
- Assisting in toilet issues

- Providing comfort to an upset or distressed pupil

Intimate care tasks are associated with bodily functions, body products and personal hygiene that demand direct or indirect contact with, or exposure of, the genitals.

Examples of intimate care include support with dressing and undressing (underwear), changing incontinence pads, nappies or medical bags such as colostomy bags, menstrual hygiene, helping someone use the toilet, or washing intimate parts of the body.

Pupils may be unable to meet their own care needs for a variety of reasons and will require regular support.

The provision of personal care will always be deemed to be **regulated activity** regardless of frequency and whether they are supervised or not.

Health and safety

The Health and Safety Policy lays out specific requirements for cleaning and hygiene, including how to deal with spillages, vomit and other bodily fluids.

Any member of staff that is required to assist a pupil with changing a medical bag will be trained to do so and will carry out the procedure in accordance with the Supporting Pupils with Medical Conditions Policy.

Staff will wear disposable aprons and gloves while assisting a pupil in the toilet or while changing a nappy, incontinence pad or medical bag.

Soiled nappies, incontinence pads and medical bags will be securely wrapped and disposed of appropriately.

Where one pupil requires intimate care or toileting support, nappies, incontinence pads and medical bags will be disposed of in an ordinary bin, as per health and safety guidelines.

Where more than one pupil requires intimate care, nappies, incontinence pads and medical bags will be disposed as follows:

Nappies will be placed into a tie handle bag and placed into the designated nappy bin.

Soiled clothing will be double bagged and sent home. They must not be rinsed by hand.

Staff will wash hands before providing intimate care and disposable gloves and aprons will be worn. The changing area and mat will be cleaned after use with antibacterial spray and the toilet will be left clean. Staff will wash and dry hands after completing intimate care.

Staff and facilities

Staff members who provide intimate care will be suitably trained, and will be made aware of what is considered good practice.

Staff will only be required to administer intimate care if it is listed in their job description or contract of employment.

Suitable equipment and facilities will be provided to assist pupils who need special arrangements following assessment from a physiotherapist or occupational therapist. This may include the following:

- Adjustable bed
- Changing mat
- Non-slip step
- Cupboard
- Adapted toilet seat or commode seat
- Hoist
- Swivel mat
- Disposable gloves/aprons
- Nappies, pads and medical bags
- Tissue rolls (for changing mat/cleansing)
- Supply of hot water
- Soap
- Antiseptic cleanser for staff
- Antiseptic cleanser for the changing bed/mat
- Clinical waste bag
- Nappy bins
- Spillage kit

The school has one extended disabled toilet facility with a washbasin. It has one medical room with handwashing facilities. There are toilets in or outside of every classroom. The Owlets classroom has a nappy changing area.

Where possible, mobile pupils will be changed while standing up. Pupils who are not mobile will be changed on a purpose-built changing bed or on a changing mat on the changing table in Owlets classroom.

Staff will be supported to adapt their practice in relation to the needs of individual pupils, taking into account developmental changes such as the onset of puberty or menstruation.

School responsibilities

Arrangements will be made with a multi-agency to discuss the personal care needs of any pupil prior to them attending the school.

Where possible, pupils who require intimate care will be involved in planning for their own healthcare needs wherever possible, with input from parents welcomed.

In liaison with the pupil and parents, an individual intimate care plan will be created to ensure that reasonable adjustments are made for any pupil with a health condition or disability.

Regular consultations will be arranged with all parents and pupils regarding toilet facilities.

The privacy and dignity of any pupil who requires intimate care will be respected at all times. A qualified member of staff will change the pupil, or assist them in changing themselves if they become wet, or soil themselves. Any pupil with wet or soiled clothing will be assisted in cleaning themselves and will be given spare clothing, nappies, pads, etc., as provided by the parents.

Members of staff will react to accidents in a calm and sympathetic manner. Accurate records of times, staff, and any other details of incidents of intimate care will be recorded in the Nursery in a Box app (in the case of children in Owlets or Nursery) or in a Record of Intimate Care Intervention, which will be shared with parents and stored in the school office.

Arrangements will be made for how often pupils with medical or health needs should be routinely changed if the pupil is in school for a full day, and the pupil will be changed by a designated member of staff. A minimum number of changes will be agreed. In Owlets and for any children wearing nappies in nursery, a soiled or heavily wet nappy will be changed immediately, with set times for nappy changes throughout the day and children will not remain in the same nappy for more than three hours.

The family's cultural practices will always be taken into account for cases of intimate care. Where possible, only same-sex intimate care will be carried out.

Parents will be contacted if the pupil refuses to be changed, or becomes distressed during the process.

Excellent standards of hygiene will be maintained at all times when carrying out intimate care.

Parental responsibilities

Parents will change their child, or assist them in going to the toilet, at the latest possible time before coming to school.

Parents will provide spare nappies, incontinence pads, medical bags, wet wipes and a change of clothing in case of accidents.

Parents will inform the school should their child have any marks or rashes.

Parents will come to an agreement with staff in determining how often their child will need to be changed, and who will do the changing.

Parents will give consent for intimate care in the Nursery In A Box app. For children, joining the school in reception or later, without medical needs and for whom 'accidents' are expected to be rare, consent to provide intimate care will be assumed, unless parents withdraw consent in writing. For children with medical needs which may require intimate care, consent will be gained within the child's care plan.

Safeguarding

Staff members working directly with children will receive safeguarding training as part of their mandatory induction, in line with the Child Protection and Safeguarding Policy.

Intimate care is a regulated activity; therefore, only members of staff who have an enhanced DBS certificate with a barred list check are permitted to undertake intimate care duties.

Wherever possible, staff involved in intimate care will not be involved in the delivery of sex education to the pupils in their care as an extra safeguard to both staff and pupils involved.

Individual intimate care plans will be drawn up for pupils as appropriate to suit the circumstances of the pupil.

Each pupil's right to privacy will be respected. Careful consideration will be given to each pupil's situation to determine how many carers will need to be present when the pupil requires intimate care.

If any member of staff has concerns about physical changes to a pupil's presentation, such as marks or bruises, they will report the concerns to the [DSL](#) immediately.

Special consideration will be taken to ensure that bullying and teasing does not occur.

To maintain dignity, wherever possible, older children will not be expected to go to Owlets or Nursery to be changed or to receive intimate care.

Swimming

Pupils in year two upwards regularly participate in swimming lessons at [Nick's Swim School](#): some pupils will need to be supervised or assisted during changing.

Parental consent will be obtained before assisting any pupils in changing clothing before and after swimming lessons.

Details of any additional arrangements will be recorded in the pupil's individual intimate care plan.

Offsite visits

Before offsite visits, including residential trips, the pupil's individual intimate plan will be amended to include procedures for intimate care whilst off the school premises.

Staff will apply all the procedures described in this policy during residential and off-site visits.

Meetings with pupils away from the school premises, where a chaperone is not present, will not be permitted, unless approval has been obtained by the headteacher.

Consent from a parent will be obtained and recorded prior to any offsite visit.

Toilet training

Members of staff providing care will inform another member of staff prior to taking a pupil to be changed or to use the toilet.

Where potties are used, they will be emptied immediately and cleaned with an anti-bacterial spray. The potty or toilet is checked to assess whether it is clean before use and toilet paper is well stocked.

Gloves and aprons will be worn before each change and the area should be prepared to ensure it is clean and suitable for use. Gloves must be worn at all times when changing nappies, and during any instances where the member of staff could come into contact with bodily fluids.

All pupils will be accompanied to the toilet and will be appropriately supervised and supported during the toilet training stage. Staff will be sensitive and sympathetic when changing pupils and will not make negative facial expressions or negative comments. Pupils' efforts will be reinforced by praise where appropriate.

Staff are required to ensure that soiled/wet nappies are changed as soon as possible. Where pupils are left in soiled nappies and/or clothes, this will be dealt with in line with the school's Disciplinary Policy and Procedure.

Pupils will be encouraged to wash their hands with soap and warm water, with assistance provided where necessary.

If a pupil has a toileting accident, they will be offered assistance to change or be changed by a member of staff regardless of their age.

To build independence, pupils will be encouraged to replace their own clothes and flush the toilet, if they are capable of doing so.

Parents are consulted on the approach to toilet training their pupil to ensure there is consistency with the approach at home. Pupils' progress is discussed at handover with parents. If any pupil is struggling with toilet training techniques or has any issues, e.g. a rash, this will be discussed with the headteacher and the pupil's parents.

Monitoring and review

This policy is reviewed every [two years](#) by the [headteacher, nursery leader](#) and the [DSL](#).

All changes are communicated to relevant stakeholders.

The scheduled review date for this policy is [January 2028](#).
